Nicoll Asks for Protection from Granger---The Committee May Adjourn Next Week.

In expectation of catching an occa-Investigating Committee transferred its headquarters this morning to Part I. of the Superior Court, around on the south side of the Coust-House. The big windows were all flung wide open, but the sea breezes were very shy, and what air was stirring arose from the heated as phalt pavements of City Hall Park like the breath from a flery furnace.

It had been suggested that the Comalong through the Summer, now that it Chairman Lexow said this morning that it would not suit his personal conve

The witness chairs were filled with ping men, and it was evident that Mr off and his associates intended to fol-low up the lead which they opened yes-terday, with additional evidence, and show what perquisites the police re-ceived from business men whom they allowed to violate corporation ordi-

For the first time in two weeks there were no women to be seen in the courtmoom. Mr. Goff's "gentle June buds" were to be given a rest for to-day.

Mr. Goff called off a long list of names of witnesses, most of whom were present, but there were a number of absentees. Before calling any witnesses, Mr. Nicoll asked very deliberately whether the witness Granger was still under the protection of the Committee.

In answer to this question Mr. Goff asked what was the condition of Mr. McClave's health. Mr. Nicoll said ne wanted to know, because if Granger was under the protection of the Committee he was going to do something.

"Well, I positively decline to say whether the witness is under subpoena or not. I will not state publicly anything in regard to the witnesses of this Committee." said Mr. Goff.

Chairman Lexow said that it would be proper to state that Granger had not yet seen discharged from the subpoena, and is such he might be regarded as under the protection of the Committee.

Wants Protection from Granger. No Women as Witnesses.

Them to Candy and Soda Water.

He Was Enticed Away.

Mrs. J. Logan; of 324 East Seventieth street, called at Police Headquarters this morning and asked the police to make a search for her missing son, John, five and a half years old, who, she fears, has been inveigled away and perhaps

oully dealt with. The woman was accompanied by her ten-year-old son, James, who seemed to know more about the circumstances f his brother's disappearnce than did the mother, and it was his story that excited the gravest suspicion in the minds of the police.

Mrs. Logan's three sons, John, James and a haif and seven years respectively, were sent our yesterday about noon to pick up kindling wood, with which to cook the midday meal. The youngest of the boys is an exceedingly bright child, and, according to the mother's statement, was always mindful of her injunctions, and never disobeyed even the alightest cammand until yesterday. She cautioned the boys to return as soon as they had gathered thair basketful of wood. One o'clock came, and when they failed to return the mother became aboreheasive. and a half and seven years respectively.

rul of wood. One o'clock came, and when they failed to return the mother became apprehensive.

She started out to make a search, fearing that, perhaps, some mishaps might have betailen one or all of them. She failed to find any trace of the children all of the afternoon. After nightfall she became more apprehensive and notified the policeman on post, who knew all of the children. He kept a sharp lookout and made numerous inquries, but no tidings of any of the children, but no tidings of any of the children. At midnight the boy, Willie, was found slitting on the sidewalk near his home, srying. He was afraid to go home. While the policeman was talking to him the boy, James, appeared and when questioned as to the whereabouts of the youngest child, John, he told a story that excited the gravest susplicions in the mind of the policeman and caused him to make a report of the matter forthwith to the staton-house.

He took the two children home to their almost distracted mother, who, when told of the circumstances connected with disappearance of her youngest child, toppled over on the floor and almost fainted away.

The boy, James, said that they had

away.

The boy, James, said that they had gone to the scene of the late are at Jones's Woods to gather chips. While so engaged they were approached by a man about thirty years old, with a light sandy mustache and long, rough features. The stranger seemed to take a great fancy to the children, and patted each apport the children, and patted each apport the took them to a near-by soda-water stand, where he bought each two glasses of soda.

stand, where he bought each two glasses of soda.

He walked about the neighborhood with them, buying candles, oranges and sweetmeats until about 4 o'clock, when James declared that he must take his little brother home to his mother.

The stranger gave him a few pennies pajant pure ucjoidsns s.puj and Auju of them all to take a ride on the carousel in Central Park. A half hour was spent in this amusement when James declared that he, at least, must go home and tell his mother of his brother's whereabouts, because, as he explained. whereabouts, because, as he explained, he knew she would be worried about them.

baps.

Bradley Favors Seaside Sessions.
Uncle Dan Bradley said he would be in favor of continuing the investigation right along if they would hold the sessions at Coney Island or Rockaway Beach, but to keep on in New York was out of the question.

Mr. Goff was very emphatic in his views on the subject. "It would simply be a physical impossibility for me to go on with this work much longer. We must stop at the end of next week."

At 11 o'clock, when work was resumed, Chairman Lexow and Senators Bradley, Cantor, Pound and O'Connor made up a quorum. Counsellor Sutherland, from Rochester, was in his customary place and sharpened his pencil to take copious notes of the proceedings, and Mr. Nicoll was back again from Albany to relieve ex-Judge Ransom of the duty James had no sooner started off than

LISBON'S STRIKING BAKERS.

Will Be Forced to Resume Work Under Military Supervision.

LONDON, June 22.-A despatch to The Times from Lisbon to-day says that the encampment of the 6,000 bakers of that city, who struck against a municipal regulation requiring the master bakers to they will seil bread of a proper weight. was surrounded by a strong force of military and police at 4 o'clock this morn-

ing.
The striking bakers were being escorted in custody into Lisbon, where they will be compelled to resume work under military and police supervision. As many of the strikers are Spaniards, and as the latter are believed to be the leaders of the strike, they will be immediately expelled from Portugal. During the two days which the bakers have passed in their camp outside of Lisbon soldiers have been employed to bake bread enough to supply the demands of the citizens.

PLOT AGAINST THE CZAR.

Mine Was to Have Been Exploded Under His Train.

Wants Protection from Granger.
"We'l, what I wan." said Mr. Nicoli, is to ask the Committee to keep Granger way from me. He met me in the street ast Monday, and said he was coming to see me at my office. That he didn't want to buck up against Mr. McClave any more and wanted to have a talk with me and ell me all about Mr. Goff's purposes."

Mr. Goff said that he was not surprised to see Mr. Nicoli let off a sky-ocket, as Fourth of July was so near, in he was delighted to have him back gain to relieve the monotony of the roceedings.

He was sorry, however, to see that he had arrived at such a condition of innoc-iced to see that he dear the consequence of the discovery of this plot the Car, it is said, has decided to should a surprise the condition of innoc-iced to see that he dear the consequence of the discovery of this plot the Car, it is said, has decided to should not his intention of attenting the opening of the Memorial Church at Borki.

Under His Train.

(By Associated Press.)

Cab by a Time Signal.

Serious Injuries.

rtown Express, the fastest train on the lew York, Susquehanna and Western Railroad and the one that collided with a trolley-car at Paterson the other day, was thrown from his cab at 8.26 this well-filled passenger train dashed down Ridge without a hand on the engine's

danger. The grade from Two Bridges dow the mountain for twenty miles is very steep, and engineers frequently apply and William, aged five and a half, ten the air-brakes to keep their trains under control. While taking this precaution his morning at a sharp curve west of Oak Bidge Pollison became convinced that the brake on the tender of his engine was out of order. He jumped to the floor of the tank

and while leaning far out to neer at the brakes, he was struck by the upright post of an automatic time signal. gine, and fortunately threw him away from the wheels down a bank, twen-ty-five feet high. Passengers saw him

ty-five feet high. Passengers saw him rolling over and over, but none knew he was the engineer. No cry of warning was heard, even if he gave one, and in the engine, Fireman Michael Collins, ignorant of the accident, continued at his duties.

The train in the mean time, without air-brakes applied, was dashing down the grade at an unusual rate of speed for even the Deckertown express. Had there been a train ahead, a landslide or any of the other countless dangers which engineers have in mind while

even the Deckertown express. Had there been a train ahead, a landside or any of the other countless dangers which engineers have in mind while their keen eyes are glued to the rails. The train might have plunged into it without a warning.

Every one of the hundreds of passengers was in peril without knowing it, while the man in whose care their lives were intrusted lay unconscious at the foot of the embankment.

When nearing Oak Ridge, one of the train's crew on the first car called the attention of Fireman Collins to the fact that Pollison was not on his seat in the cab. The fireman looked around hurriedly for Pollison, and then, realizing that there must have been an accident, quickly stopped the train. He reversed the engine and, with a lookout on the rear car the train was run backward to the sutomatic time signal, which, it was correctly surmised, might have knocked Pollison from his cab.

The engineer was found lying beside the track, in a dazed condition. He was placed in the bagsage, car and taken to his home in Butler, where medical aid was summoned. The doctors said his injuries were not fatal, but it will be some time before he will be able to resume work.

Fireman Collins ran the train to Paterson, where an extra engineer was in waiting to bring the train to Jersey City.

"BIG TOM'S" WIFE PEACHES.

Jennie Kinsella Tells All About the Drier Robberv.

LONG ISLAND CITY, June 22.-Justice Duffy's police court was crowded this morning when Christopher Madden and charge of burglarizing Carl Driers's sastreet election morning, when \$416.75 was

Mrs. Drier testified to the robbery by

to where the safe stood. The man held a pistol at her head and told her to open the safe.

She was nervous and could not open it. Then the man, who spoke German, it. Then the man, who spoke German, it. Then the man, who spoke German, it. Then the man was seen and Houndsditch third. She said that one of the men stood over her husband with a pistol, and said he would kill him if he moved. After she opened the safe, they took all the money.

would kill him if he moved. After she opened the safe, they took all the money.

Mrs. Jennie Kinsella, of 564 Vernon avenue, better known as "Big Tom," now serving fifteen years for burglary, testified, creating a sensation.

Mrs. Kinsella said that all the burglar ies on Long Island, in Bridgeport, Conn, and at Stockbridge, Mass., were planned at her house, 170-1-2 Franklin street, Greenpoint, where she formerly lived. She said that Madden, Edward J. Fitzpatrick, who was shot and killed while committing a burglary in Bridgeport; Mahoney, Michael Sherlock, Follmer and her husband, all met at her house on the night before Drier's saloon was robbed, and planned the robbery.

She said the men all returned to her husband and planned the robbery, between 5 and 6 o'clock on election morning. They equally divided the \$416.75 secured at the Drier place. They spoke among themselves of how nearly and quickly the work was done, and each man gloried over his part in the affair.

Mrs. Kinsella said Mahoney, Sherlock and Follmer went on the inside of the place, while Madden, Flizpatrick and her husband remained outside the place. The big watch dog in the back yard was muzzled by Madden so that he could make no noise, and Mrs. Kinsella said her husband started in to rob about two years ago, together with the rest of the gang. The gang made good hais, and when it returned from Berkshire her husband started in to rob about two years ago, together with the rest of the gang. The gang made good hais, and when it returned from Berkshire her husband gave her money and other rusband started in to rob about two years ago, together with the rest of the gang.
